

Examples of manufacturing.

We are happy to show you current CNC manufacturing examples.

From small series and custom-made products to regular productions that can be ordered by our customers when needed – our portfolio is extensive.

Services.

With our powerful equipment, we produce almost every conceivable shape to perfection. We process a wide range of materials such as steel, stainless steel, non-ferrous metals, aluminum, and various plastics into series and custom-made products.

Our well-trained and competent workforce as well as our broadly diversified machine park guarantee a fast and safe processing of your order!

Series production, Assemblies, Machinery and Plant engineering.

• 3D CAM & CAD Design

Our professional design services are the basis for economic and innovative solutions. For the planning and implementation of high customer requirements, we work with state-of-the-art software technology.

• Modern CNC Manufacturing

As an experienced specialist for CNC manufacturing in the turning and milling sector, we use the latest machines for all common processing methods. This allows us to meet our high standards in terms of quality and performance.

• Welding and Joining

As a certified welding company, we are a competent partner when it comes to the production of welded components. We process various steels and aluminum alloys. Our welding robots are used for large series.

• Complex Assemblies

Thanks to our high manufacturing depth, we are able to offer complex assemblies. From the idea through development, design, manufacturing, and delivery of complete assemblies, you get the entire range of services from one source.

Welding Robots.

We offer welding robot solutions for a variety of applications. Our new welding robot system is now in operation, and with our expert team, we ensure that we meet all requirements and provide you with the best possible solution.

What we guarantee:

- CONSISTENT QUALITY
- HIGH SPEED
- COST SAVINGS
- SECURITY
- FLEXIBILITY
- EFFICIENCY

Insights into the work of a welding robot in our video.
